

COSMO

BISHOP

You could have shared this with me.

You could have had the power.

Don't you know the places we can go
with this?

Exactly! The world isn't run by weapons
anymore, or energy, or money, it's run
by little ones and zeroes, little bits of
data.

It's all just electrons.

I don't expect other people to
understand this, but I do expect
YOU to understand this! We
started this journey together!

There's a war out there, old
friend, a world war. And it's not
about who's got the most
bullets, it's about who controls
the information. What we see
and hear, how we work, what
we think, it's all about
the information!

I know.

I don't want it.

Yeah, I do.
There's nobody there.

I don't care.

It wasn't a "journey", Cos.
It was a prank.

If I were you, I'd destroy
that thing.
